

DEPOSIT DAY PROCEDURES

IT'S COOL TO SAVE AT SCHOOL!

Preparation

Deposit Day generally takes place before school or during lunch break at the same location each week. A table with a couple of chairs, a calculator and a plastic cash drawer make it easy for students to drop off their deposits and select a prize. A computer, internet connection and printer should also be available.

Volunteer Readiness

Try to have two Volunteers—one to manage the line, the other to accept deposits.

1: Each Volunteer must have their own User ID and Password

⇒ Existing Volunteers can ADD new Volunteers. See page 4.

2: Have a printed copy of the Student Report from last Deposit Day handy.

⇒ Enter deposits on Student Report if internet is down.

3: Put the incentives/prizes on the table so students can select them.

Student Incentives

Determine how incentives will be awarded for deposits. One successful method is to award a sticker or small prize for each deposit and a larger prize for each **third deposit** in the month. Students receive 10 Points for each deposit. Total Points are displayed on the Student Report for easy reference.

“Volunteer enthusiasm is the difference maker at School Savings!

Students love to hear their Volunteers encourage them to save to make their dreams come true...
